

City Park Arboretum Scavenger Hunt

Grades 1—6

1. Find two different kinds of trees with needles.

2.. Find a tree with peeling bark.

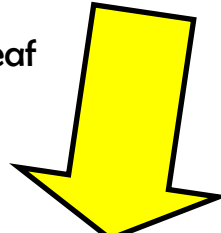

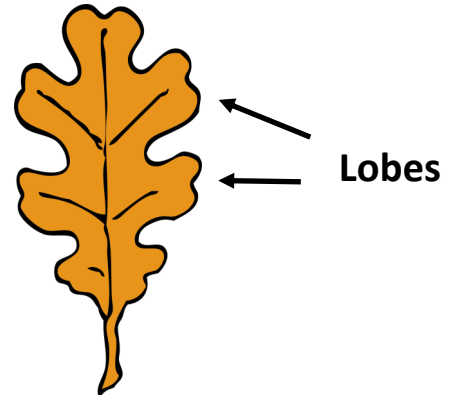

3. Find a plant with flowers.

4. Find some berries (but don't eat berries you don't know!)

5. Find a leaf with lobes on it, and a leaf without lobes.

6. Find five groves (close together groups) of trees.

7. Find a leaf that is not green.

City Park Arboretum Scavenger Hunt

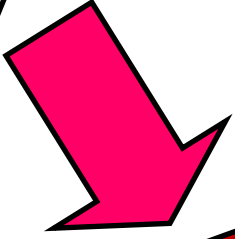

Grades 6 - Adult Write names next to questions.

1. What are the two species of pine trees in the park?

2.. Name three species of maples growing here.

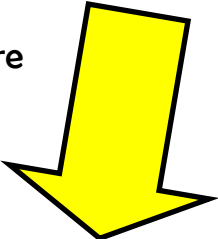

3. Identify one shrub you see (many are by the stream and Northport Avenue).

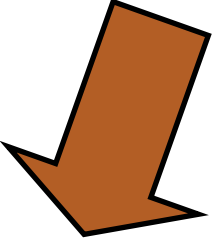

4. Find a feature that filters rainwater.

5. Find two species of birch trees. How are they different?

6. Find five groves (close together groups) of trees. What trees are in the groves?

7. Find the two species of native eastern trees that grow larger than any others.
